8 years of experience in product design and design operations, delivering over 30 digital products.

■ Summary

- Specialized in building and operating design systems, ensuring consistency and scalability across teams.
 - Launched 30+ end-to-end digital products by aligning design strategy with user and business goals.
 - Proficient in Figma workflows, including component libraries, prototyping, and design documentation.
 - Experienced in information architecture, inclusive design principles, and maintaining accessibility standards.
 - Collaborated with global brands like Samsung, SM Entertainment, and Lotte to deliver digital products.
 - Strong in communication and cross-functional alignment.
 - Active mentor supporting junior designers through ADPList and KDD communities
-

■ Professional Experience

▣ Product Manager (Bero AI / 2025 - Present)

leading the development of an AI service for cross-species, bidirectional communication. Responsible for research, product design, and end-to-end product management.

▣ IT Project Manager (Rise Partners / 2024 - 2025)

Currently serving as the head of digital operations, managing the team structure, recruitment, business pipeline, and delivery outcomes.

- Established and lead a digital agency division, overseeing business modeling, branding, and internal workflows
- Directed cross-functional teams for mobile and web app development (community platforms, internal tools)
- Led IT B2B proposals, expanding client pipelines through sales engagement and strategic pitching
- Oversaw full-cycle delivery including planning, sprint execution, QA/QC, and client communication

▣ Project Manager and Design Manager (Brickmate /2020 - 2023)

Delivered complex, high-value digital products for global clients through structured execution and strategic alignment. Scaled the design team from a small unit to a structured organization and **played a key role in the company's \$10M M&A.**

- **Managed \$1.2M+ in product deliveries for Samsung, SM Entertainment, Lotte, and Danal**
- Built team-wide onboarding, hiring, and training processes to improve creative consistency
- Authored design guidelines and project templates to unify outputs across all client workstreams
- Closely collaborated with C-levels and strategic teams during the company's acquisition phase
- Ran Agile sprints across product, design, and QA, ensuring cross-functional delivery alignment

▣ Product Owner and Design Lead (Butler / 2023)

Boosted user retention and team velocity through product redesign and operational enhancements.

- Increased user retention by 40% through landing and home screen redesign.
- Implemented Jira for task management and built a Notion-based knowledge system.
- Developed a hybrid Agile-Waterfall process for improved delivery clarity.

▣ UI/UX Designer (e-commerce / 2018 - 2020)

Designed digital interfaces and assets for e-commerce and educational websites, including video content support.

■ Professional Education

- Master of Fine Arts in Service Design
 - Bachelor of Fine Arts in Industrial Design
-

■ Additional Information

- Military Service: Administration Specialist, Sergeant, ROK Army (2015–2017)
- Active mentor on ADPList and KDD communities
- Member of the Society of Communication Design
